PRAANJEEV

AI EMERGENCY RESPONSE & HOSPITAL
COORDINATION SYSTEM

*“In the race against time, we choose
life.”*

Tirth Patel | Neev Patel | Tanmay Patel | Kashyap Modi

Imagine this moment.

A loved one suddenly becomes critically ill. The family needs help immediately. The ambulance is on the way.

“Which hospital can actually treat them right now?”

✗ Nearest Hospital?

❤️ Right Hospital?

Every second matters.

INFORMATION EXISTS — BUT IT IS FRAGMENTED.

Patient

Needs immediate, specialized care without the risk of being turned away.

Family

Needs confidence and trust that their loved one is in the right hands.

Ambulance

Needs the right destination and the fastest practical route in real-time.

Hospital

Needs time to prepare resources and teams before the patient arrives.

In an emergency, choosing the wrong hospital can cost precious time.

What if the emergency system could
think before the ambulance arrives?

PRAANJEEV  

AI-POWERED EMERGENCY COORDINATION

RIGHT HOSPITAL

RIGHT INFORMATION

RIGHT TIME

Technology moving at the speed of an emergency.

“Instead of the hospital meeting the emergency at arrival, PRAANJEEV helps the hospital prepare for it.”

AI understands the emergency.

PATIENT PROFILE

45 Years | Anand, Gujarat

SYMPTOMS

❤️ Severe chest pain

VITALS

HR: 118 BPM

SpO₂: 89%

BP: 90/60 mmHg

CRITICAL

REQUIRED CAPABILITIES

- ✓ ICU & Oxygen Support
- ✓ Cardiac-Capable Treatment
- ✓ Emergency Team Readiness

PRAANJEEV provides AI-powered decision support and does not replace professional medical diagnosis or doctors.

The nearest hospital is not always the right hospital.

HOSPITAL	DISTANCE / ETA	RESOURCES	AI MATCH
Hospital A	2.1 km 12 min	Limited ICU	Partial
Hospital B	4.8 km 8 min	ICU Available	STRONG MATCH
Hospital C	3.2 km 14 min	ICU Available	Partial

AI Recommendation → Hospital B

Prioritizing treatment capability and fastest practical route over raw distance.

When a life is at stake, trust cannot be optional.

Verification Journey

- License & Registration
- Identity Verification
- Admin Validation

- ✓ Registration verified
- ✓ Authorized representative

Live Status

- Verified & Active
- Pending Update
- Suspended

- ✓ Emergency facility check
- ✓ Data confidence score

Resource Intelligence

VERIFIED

HOSPITAL STATUS

- ✓ ICU Availability: 4 Ready
- ✓ Oxygen: Available
- ✓ Updated: 5 mins ago

The fastest practical route can save precious minutes.

AI RECOMMENDED ROUTE

Low Traffic • Optimized for Emergency

Main Road	18 min
Highway	12 min

Where AI becomes useful — not just impressive.

Coordinating Patient, Hospital Staff, and Emergency Responders in one unified journey.

Behind every emergency is a human story.

- ♥ A parent waiting for their child
- ♥ A family waiting for a loved one
- ♥ A doctor preparing to save a life

GIVING THEM THE MOST VALUABLE RESOURCE

TIME.

“The nearest hospital is not always the right hospital.”

PRAANJEEV 

“In the race against time, we choose life.”

EVERY SECOND. EVERY RESOURCE. EVERY LIFE.
